CITY OF SAN ANTONIO DEVELOPMENT OF IMPERVIOUS COVER DATA SET

I. BACKGROUND

The City of San Antonio, Public Works Department is seeking a Request for Qualifications (hereafter referred to as, "RFQ" from qualified firms to provide professional services necessary to develop a complete impervious cover Geographic Information System (GIS) Spatial and Database shape file for all parcels in the Storm Water Utility collection area. This information will play a key role in reassessing the Storm Water Utility Fee that is currently utilized to support storm water infrastructure maintenance and operations of and other activities that ensure the City's compliance with the Clean Water Act of 1972 (Municipal Separate Storm Sewer System – MS4).

The Storm Water Utility Fee was established by City Council in 1993. The ordinance adopted a schedule of rates based on lot size and land use. The current billing structure takes customer classification and places them into tiers based on lot size. This fee funds various operation services related to the MS4 Permit and other operations related to Storm Water Management for the City of San Antonio.

The City of San Antonio Department of Public Works is seeking to update the Storm Water Utility Fee and migrate from a fee schedule based on lot size and land use to an impervious cover methodology.

II. SCOPE OF WORK

The services for project development provided under this agreement may include, but are not limited to:

Development of Impervious Cover data set

This consultant will develop a complete impervious cover Geographic Information System (GIS) Spatial and Database shape file for all parcels in the Storm Water Utility collection area. The consultant will use existing data to include but not limited to, 2013 Bexar Appraisal District Parcels, 2013 aerial photos, residential building footprints as developed by the Bexar Appraisal District, and 2009-2010 LIDAR. These existing data sets will provide the foundation to develop impervious cover by parcel for the purpose of determining the storm water utility rate.

Data Gathering:

The consultant will work with COSA staff to obtain and analyze all existing data sets for the purpose of developing impervious cover amounts by parcel. The consultant will receive in a digital format from the following:

COSA staff will provide:

2013 Bexar Appraisal District Parcel data in GIS *.shp files
2013 Bexar County aerial photos in *.sid file format
2010 Topographic Data

Bexar Appraisal District will provide

Residential building footprints in *.shp files

The San Antonio River Authority (SARA) will provide

2009-2010 LIDAR raw point data

The San Antonio Water System (SAWS) will provide

Billing Account database

Impervious Cover creation:

The consultant will develop an impervious cover dataset by parcel for the parcels/accounts that SAWS collects storm water fee. Using the created residential building foot print developed by Bexar Appraisal District staff, the consultant will review and verify this dataset and create the missing commercial, industrial, multi family parcel/accounts. The creation of the missing data sets will be the responsibility of the consultant; this could be done either by LIDAR extraction, conventional digitizing, aerial photo change detection or means as needed.

Perform Account Review:

Review all existing accounts as listed in the billing system against the parcel mapping to identify potential adjustments that may need to be made prior to developing and implementing the proposed fee structure. Examples of potential account adjustments include:

- Vacant parcels with adjacent water service
- Vacant parcels with no adjacent water service (or as exempted through Texas Local Government Code)
- Federal properties
- Railroad properties
- Duplicate billings, or other potential parcel definition issues

Determine Fee Structure:

Utilize the adjusted GIS impervious data to conduct a cost recovery analysis to determine appropriate fee rate structure and fees for the next five years. Analysis should identify and recommend changes to the current rate structure and fees. Provide an explanation of the

cost recovery analyses methodology. Compile a comparative schedule of current rates and any recommended rate and/or rate structure changes. Benchmark the proposed rates with other cities in Texas, and comparable programs nationwide.

Recommend Fee Incentive Program:

Provide recommendations for an incentive program for properties that use innovative methods to improve storm water quality and quantity impacts as a part of the site design. Recommend methods for department coordination and documentation to allow verification of implementation of the design prior to implementing fee incentives. Recommend methods for department coordination and documentation for annual verification of maintenance for design elements.

Perform Impact Analysis:

Identify and document the revenue associated with any recommended changes to the current fee structure or rates. Analyze the impact of local, state and federal legislative exemptions to the fees. Analyze the impacts to existing accounts through implementation of the recommended changes.

Evaluate Billing Mechanism:

The storm water fee is currently billed monthly by SAWS. The consultant will provide needed guidance to the City/SAWS to facilitate the reprogramming of the current billing software to transition to impervious cover based billing. Consultant will provide the following

- Final GIS*.shp file with associated database and metadata
- Parcel ID's
- Square footage or parcel and impervious cover amount per parcel
- Number of assigned ERU's per parcel

Provide Recommendations for Ordinance Revisions:

Provide suggested revisions to the Ordinance as necessary to implement the proposed incentives and changes to the fee structure. Provide an electronic file, with changes marked in red-line tracked-edit format.

Provide Ongoing Project Documentation: Initial Findings Memorandum, Preliminary Draft, Final Draft, and Final Submittal:

This project is being undertaken to implement a comprehensive financial program for necessary drainage related infrastructure, operations and maintenance, and regulatory compliance. The schedule forms a critical element in supporting budget and finance decisions for the annual budget process and any proposed changes that will need to be implemented. Timely status briefings and documentation at key project milestones are critical to overall project approval and implementation. The following reports and presentations form fixed submittal milestones:

- a) **Initial Findings Memorandum:** Provide a technical memorandum that summarizes initial findings including recommendations concerning projected costs for the next five years, revenue needs and applicable sources, proposed billing rates and structure, optional fee incentive programs, and integration with the current billing structure (revenue needs will be provided by City staff). Project elements requiring decisions by the City should be identified at this time. The memorandum should be accompanied by a brief power point presentation to be used to brief City Council about key findings of the study.
- b) **Preliminary Financial and Restructuring Plan Draft:** Provide a preliminary financial plan report that incorporates and expands the initial findings memorandum to include a summary of activities performed per the scope of work that have been conducted to develop the plan. Include all initial findings, recommendations, and impact analysis. Include a discussion of the current cost of services (provided by City Staff), projected costs, a schedule of current and recommended fees, the fee incentive program, metadata for the updated impervious GIS Data. The preliminary draft should be accompanied by a brief power point presentation to be used to brief City Council about key findings of the study.
- c) **Final Financial and Restructuring Plan Draft:** Provide a draft of the final financial and restructuring plan that incorporates and expands the preliminary report. Include a summary of activities that have been conducted per the scope of work to develop the final plan, including the findings, recommendations, and impact analysis. Address revisions requested by City Council or staff based upon the preliminary draft. Provide an electronic copy of the final plan. Staff will review the Final Financial and Restructuring Plan and provide comments prior to final presentation to Council.
- d) **Final Financial Plan Report:** Provide a final plan report that incorporates any staff suggestions and revisions made on Final Financial and Restructuring Plan. The final report should be accompanied by a brief power point presentation to be used to brief City Council about key findings and recommendations of the study.

Assist with Public Involvement and Outreach:

Because this project has the potential to significantly change how the City bills for storm water services; successful implementation is dependent on timely and effective public involvement, outreach and education. Provide the City with assistance for outreach as follows:

- Prepare for, attend, and assist with 5 meetings with City administration officials to brief on the status of the project.
- Prepare for, attend, and assist with a meeting with two City Council briefings, including development of presentation materials, handouts and any necessary graphics.
- Prepare for, attend, and assist with 10 individual councilman meetings, including development of presentation materials, handouts and any necessary graphics.
- Prepare article for Storm water newsletter explaining changes.

- Prepare for, attend and assist with 10 neighborhood meetings, including development of presentation materials, handouts and any necessary graphics. Schedule of the neighborhood meetings to be determined.

Final Deliverable:

The final products will be a GIS *.shp file with associated database and metadata for the storm water utility collection area. The final shp file will be in NAD 1983 state plane, Texas south central – feet, and in the North American Vertical Datum of 1988 or as defined by the existing datasets.

Final Report documenting all recommendations per scope of work description.

- N. **Debriefings:** In an effort to improve solicitation responses, CIMS is making available on its web site a "Solicitation Response Tip List" that includes the top common items that "make or break" submissions. Providing this information prior to the due date of the submittal provides Respondents with an opportunity to develop a better response for each solicitation. As a result of this up-front effort, each Respondent is entitled to a one (1) debriefing per calendar year after the San Antonio City Council has made an award if:
- (a) they are not the selected respondent; and
 - (b) they have not been debriefed since January 1, 2012.

- R. City reserves the right to contact any Respondent to negotiate if such is deemed desirable by City.

X. SBEDA ORDINANCE COMPLIANCE PROVISIONS

A. Solicitation Response and Contract Requirements and Commitment

Respondent understands and agrees that the following provisions shall be requirements of this solicitation and the resulting contract, if awarded, and by submitting its Response, Respondent commits to comply with these requirements

Waiver Request - A Respondent may request, for good cause, a full or partial Waiver of a **specified subcontracting goal** included in this solicitation by submitting the *Respondent Subcontracting Waiver Request* form (available at <http://www.sanantonio.gov/SBO/Forms.aspx>) with its solicitation response. The Respondent's Waiver request must fully document Sub-consultant unavailability despite the Respondent's good faith efforts to comply with the goal. Such documentation shall include all good faith efforts made by Respondent including, but not limited to, which Sub-consultants were contacted (with phone numbers, e-mail addresses and mailing addresses, as applicable) and the method of contact. **Late Waiver requests will not be considered.**

Exception Request - A Respondent may, for good cause, request an Exception to the application of the SBEDA Program if the Respondent submits the *Exception to SBEDA Program Requirements Request* form (available at <http://www.sanantonio.gov/SBO/Forms.aspx>) with its solicitation response. The Respondent's Exception request must fully document why: (1) the value of the contract is below the \$50,000 threshold for application of the SBEDA Program; or (2) no commercially-useful subcontracting opportunities exist within the contract scope of work; or (3) the type of contract is outside of the scope of the SBEDA Ordinance. **Late Exception Requests will not be considered.**

B. SBEDA Program

The CITY has adopted a Small Business Economic Development Advocacy Ordinance (Ordinance No. 2010-06-17-0531 and as amended, also referred to as "SBEDA" or "the SBEDA Program"), which is posted on the City's Economic Development (EDD) website page and is also available in hard copy form upon request to the CITY. The SBEDA Ordinance Compliance Provisions contained in this section of the Agreement are governed by the terms of this Ordinance, as well as by the terms of the SBEDA Ordinance Policy & Procedure Manual established by the CITY pursuant to this Ordinance, and any subsequent amendments to this referenced SBEDA Ordinance and SBEDA Policy & Procedure Manual that are effective as of the date of the execution of this Agreement. Unless defined in a contrary manner herein, terms used in this section of the Agreement shall be subject to the same expanded definitions and meanings as given those terms in the SBEDA Ordinance and as further interpreted in the SBEDA Policy & Procedure Manual.

C. Definitions

Affirmative Procurement Initiatives (API) – Refers to various Small Business Enterprise, Minority Business Enterprise, and/or Women Business Enterprise ("S/M/WBE") Program tools and Solicitation Incentives that are used to encourage greater Prime and subcontract participation by S/M/WBE firms, including bonding assistance, evaluation preferences, subcontracting goals and joint venture incentives. (For full descriptions of these and other S/M/WBE program tools, see Section III. D. of Attachment A to the SBEDA Ordinance.)

Centralized Vendor Registration System (CVR) – a mandatory electronic system wherein the City requires all prospective Respondents and SubConsultants that are ready, willing and able to sell goods or services to the City to register. The CVR system assigns a unique identifier to each registrant that is then required for the purpose of submitting solicitation responses and invoices, and for receiving payments from the City. The CVR-assigned identifiers are also used by the Goal Setting Committee for measuring relative availability and tracking utilization of SBE and M/WBE firms by Industry or commodity codes, and for establishing Annual Aspirational Goals and Contract-by-Contract Subcontracting Goals.

Certification or “Certified” – the process by which the Small Business Office (SBO) staff determines a firm to be a bona-fide small, minority-, women-owned, or emerging small business enterprise. Emerging Small Business Enterprises (ESBEs) are automatically eligible for Certification as SBEs. Any firm may apply for multiple Certifications that cover each and every status category (e.g., SBE, ESBE, MBE, or WBE) for which it is able to satisfy eligibility standards. The SBO staff may contract these services to a regional Certification agency or other entity. For purposes of Certification, the City accepts any firm that is certified by local government entities and other organizations identified herein that have adopted Certification standards and procedures similar to those followed by the SBO, provided the prospective firm satisfies the eligibility requirements set forth in this Ordinance in Section III.E.6 of Attachment A.

Commercially Useful Function – an S/M/WBE firm performs a Commercially Useful Function when it is responsible for execution of a distinct element of the work of the contract and is carrying out its responsibilities by actually performing, staffing, managing and supervising the work involved. To perform a Commercially Useful Function, the S/M/WBE firm must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quantity and quality, ordering the material, and installing (where applicable) and paying for the material itself. To determine whether an S/M/WBE firm is performing a Commercially Useful Function, an evaluation must be performed of the amount of work subcontracted, normal industry practices, whether the amount the S/M/WBE firm is to be paid under the contract is commensurate with the work it is actually performing and the S/M/WBE credit claimed for its performance of the work, and other relevant factors. Specifically, an S/M/WBE firm does not perform a Commercially Useful Function if its role is limited to that of an extra participant in a transaction, contract or project through which funds are passed in order to obtain the appearance of meaningful and useful S/M/WBE participation, when in similar transactions in which S/M/WBE firms do not participate, there is no such role performed. The use of S/M/WBE firms by CONSULTANT to perform such “pass-through” or “conduit” functions that are not commercially useful shall be viewed by the CITY as fraudulent if CONSULTANT attempts to obtain credit for such S/M/WBE participation towards the satisfaction of S/M/WBE participation goals or other API participation requirements. As such, under such circumstances where a commercially useful function is not actually performed by the S/M/WBE firm, the CONSULTANT shall not be given credit for the participation of its S/M/WBE subConsultant or joint venture partner towards attainment of S/M/WBE utilization goals, and the CONSULTANT and S/M/WBE firm may be subject to sanctions and penalties in accordance with the SBEDA Ordinance.

Evaluation Preference – an API that may be applied by the Goal Setting Committee (“GSC”) to Construction, Architectural & Engineering, Professional Services, Other Services, and Goods

and Supplies contracts that are to be awarded on a basis that includes factors other than lowest price, and wherein responses that are submitted to the City by S/M/WBE firms may be awarded additional Points in the evaluation process in the scoring and ranking of their proposals against those submitted by other prime CONSULTANTS or Respondents.

Good Faith Efforts – documentation of the CONSULTANT's or Respondent's intent to comply with S/M/WBE Program Goals and procedures including, but not limited to, the following: (1) documentation within a solicitation response reflecting the Respondent's commitment to comply with SBE or M/WBE Program Goals as established by the GSC for a particular contract; or (2) documentation of efforts made toward achieving the SBE or M/WBE Program Goals (e.g., timely advertisements in appropriate trade publications and publications of wide general circulation; timely posting of SBE or M/WBE subcontract opportunities on the City of San Antonio website; solicitations of bids/proposals/qualification statements from all qualified SBE or M/WBE firms listed in the Small Business Office's directory of certified SBE or M/WBE firms; correspondence from qualified SBE or M/WBE firms documenting their unavailability to perform SBE or M/WBE contracts; documentation of efforts to subdivide work into smaller quantities for subcontracting purposes to enhance opportunities for SBE or M/WBE firms; documentation of a Prime Consultant's posting of a bond covering the work of SBE or M/WBE SubConsultants; documentation of efforts to assist SBE or M/WBE firms with obtaining financing, bonding or insurance required by the Respondent; and documentation of consultations with trade associations and consultants that represent the interests of SBE and/or M/WBEs in order to identify qualified and available SBE or M/WBE Sub-Consultants.) Without limitation, CONSULTANT further agrees to the following terms as part of its contract compliance responsibilities under the SBEDA Program:

(b), this contract is being awarded pursuant to the SBE Prime Contract Program, and as such, CONSULTANT affirms that if it is presently certified as an SBE, CONSULTANT agrees not to subcontract more than 49% of the contract value to a non-SBE firm, and

CONSULTANT agrees to subcontract at least **five percent (5%)** of its prime contract value to certified SBE firms headquartered or having a Significant Business Presence within the San Antonio Metropolitan Statistical Area (SAMSA). The Subcontractor/Supplier Utilization Plan which CONSULTANT submitted to City with its response for this contract (or, as appropriate, that it agrees to submit during the price proposal negotiation phase of this contract), and that contains the names of the certified SBE Sub-consultants to be used by CONSULTANT on this contract, the respective percentages of the total prime contract dollar value to be awarded and performed by each SBE Sub-consultant, and documentation including a description of each SBE Sub-Consultant's scope of work and confirmation of each SBE Sub-consultant's commitment to perform such scope of work for an agreed upon dollar amount is hereby attached and incorporated by reference into the material terms of this Agreement. In the absence of a waiver granted by the SBO, the failure of Consultant to attain this Sub-consultant goal for SBE firm participation in the performance of a Commercially Useful Function under the terms of its contract shall be a material breach and grounds for termination of the contract with City, and may result in debarment from performing future City contracts and/or shall be subject to any other remedies available under the terms of this Agreement for violations of the SBEDA Ordinance, or under any other law.

The company shall provide equal opportunity for Sub-Consultants, vendors and suppliers to participate in all of its public sector and private sector subcontracting and supply opportunities, provided that nothing contained in this clause shall prohibit or limit otherwise lawful efforts to remedy the effects of marketplace discrimination that have occurred or are occurring in the CITY's Relevant Marketplace. The

This clause is not enforceable by or for the benefit of, and creates no obligation to, any third party. CONSULTANT's certification of its compliance with this Commercial Nondiscrimination Policy as submitted to the CITY pursuant to the solicitation for this contract is hereby incorporated into the material terms of this Agreement. CONSULTANT shall incorporate this clause into each of its Sub-Consultant and supplier agreements entered into pursuant to CITY contracts.
